- [4. How do I use THC 750 - Opal Vape?](#)
- [5. What should I know while using THC 750 - Opal Vape?](#)
- [6. Are there any side effects?](#)
- [7. Product details](#)

1. Why am I using THC 750 - Opal Vape?

THC 750 - Opal Vape is made from medicinal cannabis and contains the active ingredients tetrahydrocannabinol (THC) and cannabigerol (CBG). Your doctor has been authorised to give you medicinal cannabis products to treat disorders which have not responded to more common treatments. THC 750 - Opal Vape may be used to treat: nausea induced by cancer treatment; chronic pain; palliative care; epilepsy; multiple sclerosis, and loss of appetite.

THC 750 - Opal Vape is an unapproved medicinal cannabis product and is only available after approval from the Therapeutic Goods Administration (TGA) Special Access Scheme (SAS) for your doctor to prescribe for you.

2. What should I know before I use THC 750 - Opal Vape?

Warnings

Always check the ingredients to make sure you can use this medicine.

Do not use THC 750 - Opal Vape if:

- you have ever had a negative reaction to medicinal cannabis or recreational cannabis or any of the ingredients listed at the end of this leaflet.
- have unstable cardiovascular disease
- have liver or kidney disease

Check with your doctor if you:

- have any other medical conditions
- take any medicines for any other condition
- have a personal or family history of psychotic, mood or anxiety disorders
- have a history of alcohol or drug abuse

During treatment, you may be at risk of developing certain side effects. It is important you understand these risks and how to monitor for them. See additional information under Section [6. Are there any side effects?](#)

Pregnancy and breastfeeding

Check with your doctor if you are pregnant or intend to become pregnant regarding the use of this medicine.

Talk to your doctor if you are breastfeeding or intend to breastfeed regarding the use of this medicine.

3. What if I am taking other medicines?

Tell your doctor or pharmacist if you are taking any other cannabis products including recreational cannabis.

Tell your doctor or pharmacist if you are taking any other medicines, including other cannabis products, or vitamins, supplements or any other medicines that you buy without a prescription from your pharmacy, supermarket or health food shop.

Check with your doctor or pharmacist if you are not sure about what medicines, vitamins or supplements you are taking and if these affect THC 750 - Opal Vape.

4. How do I use THC 750 - Opal Vape?

How much THC 750 - Opal Vape to take / use

Your doctor will work with you to decide the dose that best suits you and your symptoms. Dosage may need to be changed by your doctor to determine where the benefits are maximised and unwanted effects are minimised. Always follow the instructions from your doctor and do not adjust the dosage amount based on how you feel.

When to take / use

THC 750 - Opal Vape

Your doctor will work with you to decide how often to take the medicine that best suits you and your symptoms. Always follow the instructions from your

doctor and do not adjust when you take THC 750 - Opal Vape based on how you feel.
